OBJECTIVE

Motivated Computer Science graduate specializing in AI and ML, seeking an entry-level Software Engineer role at Infosys to apply strong programming skills, problem-solving abilities, and project experience while continuously learning and growing.

EDUCATION

Bachelor of Technology in Computer Science (AI & ML) 2021 – 2025
Avanthi's Research and Technological Academy, JNTU Gurajada
CGPA: 7.5

Intermediate (MPC) 2019 – 2021
Sri Lakshmi Ganapathi Junior College, Vizianagaram
CGPA: 7.0

Secondary School Certificate 2018 – 2019
AP Model School, Purohithunivalasa
CGPA: 8.5

SKILLS

Programming Languages	Python, Java, SQL
Web Technologies	HTML, CSS
Core Concepts	Artificial Intelligence, Machine Learning, Deep Learning
Soft Skills	Communication, Leadership, Adaptability, Team Coordination

PROJECTS

Image Generation Using Deep Learning Models

- Built an image generation system using pre-trained deep learning models.
- Gained hands-on experience with neural networks and model-based image synthesis.
- Implemented data preprocessing and model evaluation techniques to improve image quality and generation consistency.

Face Detection and Recognition System

- Designed an AI-based system to detect and recognize human faces from images.
- Applied computer vision techniques to improve detection accuracy.
- Implemented face recognition workflows using feature extraction and classification techniques to identify individuals accurately.

CERTIFICATIONS

- Python for Data Science – IBM
- ChatGPT / Generative AI – IIDT BlackBucks
- Artificial Intelligence – Ava Intern

INTERESTS

Software development, Continuous learning of new technologies and AI and Machine Learning
